surveys

Digital footprint

Turning off location tracking

- Device: iphone, adroid.
- Socail media and apps: facebook, Find my friend, instagram, snapchat, twitter, linkedin, etc.
- Fitness trackers and smart watches.

Be mindful of what you share publicly.

Be Careful
What You
Share

Once something is posted,
it is there FOREVER...
Even if you think it is
DELETED!

Phishing emails

- + Poor **spelling** and **grammar**
- + Poor **design** and **quality**
- + Is it addressed to you by name or "**valued customer**"
- + Does the email have a **sense of urgency**
- + If it sounds **too good to be true** it probably is!
- + **Never click on a link** in an email until you have verified it!

your email address has
been involved in a data
breach.

Social media phishing

- **Facebook** quizzes and games.
- **Survey scam** rewards of discounts.
- **Clickbait links** redirect you to malicious websites.
- **Crypto** scams.
- Fake facebook account, profiles, -*Elon Musk*, celebrity, fake brands or business, etc.
- Fake **job offers** asking sensitive information.
- **Urgent** messages from friends.
- Fake **customer support**- Amazon Help.
- **Dating/Romance scam**-fake profiles.

Be careful of using **Public Wi-Fi**

- Don't use public WI-FI to transfer sensitive information, such as **bank card details**.
- Cyber Criminals can set-up **fake Wi-Fi hotspots**, enabling them to intercept sensitive information you are transferring online.

Rogue access point

Wed 9:36 AM Abhishek S

Wi-Fi: Looking for Networks...
Turn Wi-Fi Off

Coffee Shop Wifi	📶
Coffee Shop Wifi	📶
Sonic-b378	🔒 📶
NETGEAR09	🔒 📶
xfinitywifi	🔒 📶
ATTpUjk297	🔒 📶

<https://www.merseyside.police.uk>

If you have to use Public Wi-Fi

- Check the **Wi-Fi** matches the premises-not ones looking similar .
- Check the website asking you personal detail-it starts with "**https**" (rather than http) and a lock icon.

Passwords Hacks

Dictionary Attack

Dictionary words or phrases

Rainbow Attack

Stored list of top 20,000 passwords - NCSC website

Target Attack

Create profile of you, family names, pets, favourite team

Brute Force

Computer tries to guess digit by digit.

MERSEYSIDE
POLICE

Set strong passwords

Use 3 random words, then mix with upper & lower case letters, numbers and symbols.
Example:

3Redhousemonkeys27!

2FA

Use two-factor authentication to secure your important accoutns.

Never use:

- Family member's name
- Pet's name
- Birthday
- Place of birth
- Favourite holiday
- Favourite sports team

POLICE

Keep Things Private

Privacy settings

Who Can see your stuff ?
Is it nessasory to share camera, microphone, location with aaps?

Passwords

Keep them secret.
Don't share them with friends.

Lacation

Turn off location services for Apps, games and websites.

HTTPS

- Encrypt normal requests and responses.
- No third parties can intercept the data over the network.
- https is slower due to adding addinal security to the process.

VS

HTTP

- Data is sent in plain text.
- Without any encryption or security mechanism.
- Text can be intercepted and read by anyone with access to the network traffic.
- -including cyber criminals.

However, nearly half of all phishing sites begin with https://

How to tell if devices have been hacked

The device is running **slowly**

- Device keeps **rebooting**
- **Apps** start automatically
- Excessive **data use**

The device gets very **warm**

- **Battery** runs out quickly

Emails report **logins** from unusual locations

- Emails report **logins** from **devices** that you don't recognise.
- **Unexpected** messages from apps.
- Someone receives messages that you **have not sent**.

Have you backed up data & upgraded your devices?

Take a minute to upgrade your devices

Software and system updates are vital because

- They **fix weaknesses** to stop cyber-criminals from attacking your devices with malware and from stealing your sensitive data.
- **A few minutes to download updates** can save your time, money and relieve you from a lot of stress.

Risks of online romance

Online dating

Roamnce scams

Visiting adult website

Sextortion Scam

Pig butchering scam

Crpto investment

What to do if you've recieved an email -

that's trying to balckmail you, threaten to share intimate images/videos.

- 1 Preserve **evidence**.
- 2 **Stop all communication** with anyone who is blackmailing or threatening you.
- 3 **Do not pay** any money
- 4 **Report** to the police/**Action Fraud**
- 5 **Report & Remove**.

Report & Remove

StopNcii.org

<https://stopncii.org/?lang=en-gb>

They are supporting:

- Intimate images shared without consent
- Threats to share intimate images
- Images recorded without consent (Voyeurism)
- Webcam blackmail (sextortion)
- Upskirting

(support multi-languages)

Take it Down

<https://takeitdown.ncmec.org/>

Having nudes online is scary, but there is hope to get it taken down.

(support multi-languages)

Avoid falling victim to sextortion

Don't respond to blackmail threats

Don't take your clothes off or perform intimate acts in front of your webcam

If a compromising photo or video appears on a website or social media site, report the images and ask for them to be removed

Ensure you have up-to-date internet security software

Can you trust your webcams?

Click here to read the story- man installed malware on victim's computers to spy on them through webcams

<https://www.sthelensstar.co.uk/news/18141052.jailed-man-installed-malware-victims-computers-spy-webcams/>

Thanks!
