

Invitation/Opportunity to travel

Points to consider

Can I attend without being physically present?

What are your objectives for the event or meeting? Could these be met via alternative means or could you attend virtually?

Is your destination in the UK?

Attend Remotely

Do you need any support from the University to participate in a different way? Contact the IT service desk.

Is your destination in Europe?

Travel without flying

We recommend travelling by coach, rail or car - by the time you factor in time spent waiting at the airport you might find that the journey times are similar and if you choose rail you can work while you travel.

It looks like flying is the only option for this trip - can you maximise the benefit of travelling by combining it with other work related activities?

Consider travelling by rail

Train is a feasible alternative to flying for lots of destinations in Europe - online resources like www.seat61.com and www.loco2.com can help you compare the length of your journey by plane and rail.
