

Aswell as the sustainability induction labs should also include the following in their induction material to answer some of the other LEAF criteria, only add what is applicable to your lab:

- info on supplier take back schemes (Q20)
- waste disposal routes specific to the lab (New Q1, Q2, Q18)
- who to contact if equipment breaks (Q14, Q7, Q26)
- how the autoclaves and washers are used in the lab (Q22)
- How to book equipment (Q23)
- Core facilities (Q29)
- Teaching (Q33)
- How to use fume hoods (Q16, Q30, Q31)

Add the LEAF training to induction checklist:

- Explain what LEAF is and why its important we implement this
- Explain sustainable actions you can take
