Problem class

- Room 106, first floor, maths building
- Monday 2–2.50 p.m. (Starting 5 October)

Set Work

- Problems circulated on Friday
- Solutions collected following Friday
- Each set of problems contributes about 1% to final mark
- No marks after 5pm Friday
- Illness: submit medical note to department

Assessment

- 90% from 3 hour exam in January.
- 8% from weekly problem sheets.
- 2% from week 7 class test.

Only the university-approved calculator can be used in the exam.

Recommended Books

Modern Engineering Mathematics

By Glyn James (2007 edition)

- about £38 from Blackwells or amazon.co.uk (earlier editions much cheaper)
- library copies in 511.1.J31 (10 copies, also some earlier editions).

Engineering Mathematics

by K.A. Stroud

Help

- Monday Problem Class
- End of Lectures
- Office Hours: Tuesdays 3-4 p.m., Thursdays 1-2 p.m..
- Recommended books

The lectures are for you. Make good use of them:

- ask questions
- tell me if I'm too fast / slow etc
- and please **DON'T TALK** in lectures - except to me.
